MR201 - ABAWD Report

In order to provide more timely information about Food Stamp households containing ABAWDs, the time frame for the information gathered by this report has changed.

Up to this point, the MR201 report reflected data two months prior to the current month. In response to requests from field supervisors, the report will now show the most current month.

The report will be run twice in September. We will run the report September 4 to reflect data for July. We will run the report again on September 5, pulling data from August. Beginning in October, the data in the report will reflect one month prior to the month the report is run, i.e., the October report will show data from September.
